The following letter has been received from WILLIAM BOARDS, Esq., on extensive agriculturiand land agent, residing at Edmonton, Middlesex:

ist and land agent, residing at Edmonton, Mid-dlesex:—

"Nightingale Hall, Edmonton.

"Dear Sir.—I have recently suffered much from a most violent cough, proceedin.; from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly aching, and my whole frame entirely shaken. Having seen the good effects of your Belsam of Anisced in several members of my family, I pur chased in small bottle, and, when going to bed at night took a teaspoonful in two tablespoonful of water, just warm. The effect was immediate; it arrested the teckling in my chest, I slept well and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned. II aving since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the femander of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its elineay.
"I am, dear Sir, yours very truly,

European Chit Chat. Edwards, the man that got so much out of the Overend Gurnay people, has. lost his berth in the Bankruptcy Co urt Of course, that was to be expected, but he had amassed so much plunder from the clever way in which he turned his position to account, that he could well afford to make way for an honester man The Reform League has taken up the Fenians, being out of any other material to operate upon; there are the Londo footpads and ticket of leave men that deserve their favorable consideration. The men of some localities are sometimes more lucky than their neighbors, as the occupant of a particular chair at a card table is sometimes more lucky than his co-players. The Oxonians have again beaten the Cambridge men in the annual boat race, by two lengths. We shall see a turn in the luck some day in favor of the dwellers by the Cambridge. The golden calf has always its proportion of worshipers; Baron Lionel de Rothschild has been chosen to represent London in the English Parliament. Sims Reeves the celebrated tenor has long been changing his notes for gold, and we presume has tired of the profitable occupation; as he declined to afford the Cheltenham people the gratification of being relieved of some of their spare metal, they instituted a suit which resulted in Mr. Reeves being mulct of quite a little pile of the circulating medium. Nothing like a good example; the Princess Christian observing the landable efforts of English ladies to increase the Anglo-saxon race, has presented her leige lord with a son The Austrians having seen with admiration the ingenious manner in which English engineers blow up vessels by way of experiment, tried their hands on the frigate Radetsky, at Lissa; they forgot, however, that there were about 300 sailors on board who seem to have received a very sudden discharge. Austrian government with its usual punctuality has informed the Reichsrath of the usual difficit, this year amounting to 4,742,495 floring. We have the ing to 4,742,495 florins. We have the pleasure to chronicle the advent of an aspirant for literary fame; the Czar, finding the publication of blue books, red books, yellow books, and books of all colors (excepting black books, which are kept private) has sagely determ-ined to enter the field with his edition of the dispatches on the Eastern ques-tion. We give him credit for enterprise, but we don't think the work will be popular. The people at the Cape of Good Hope have been trying to get up a "rush" to their gold dig gings, but there were too many pans containing the "same culla" to please the prospectors; they seem, however, to be cutting a "shine" with diamonds. Greece, having provided all the sauce necessary for Turkey, has been ren-dered clearer by expostulations from the Western Powers, and having become more solid, has resumed its place in the well-conducted society of rations. The people of Crete, finding that Greece is not concrete, have re-lapsed into their old occupation of making goats' milk cheese and cursing the Infidel. Shere Ali has been enjoying some more fun with Abdul Rahman Khan, who resembles a tin Khan in making a terrible noise about nothing Of course, Shere Ali found it to be a sheer necessity to kick Abdul Rahman out of Cabul, and the result is that the latter gentleman is venting his spleen on some poor little villages in Turkestan, like a playful little pup that, fail-ing to snap your hand, seizes your coat tail. The Maori leader, having distinguished himself by murdering some helpless women and children, tried to perform the same agreeable office for some red-coats; these latter ob jected so loudly through Snyder rifles, that 130 of the savages bit the dust, and the remainder subsided; New Zea. land will thus have a season of rest After all, when the only alternative is hard work, a lucky marriage is not to be sneezed at. One of Louis Philipe's sons, young Montpensier, managed to induce the sister to the ex-Queen of Spain, of questionable repute, to marry him; from this circumstance he has the semblance of a claim to the throne of the Iberian monarchy, and is likely to be chosen. King George of Hanover like the victim of the gallant Bombas-tes, objects to the transfer of his goods and chattels, effected so cleverly by Bismarck, and makes a protest which is about as effective as that of the victim aforesaid. A rather sharp practiced trick has been played by the Portuguese government on the English shareholders of the South Eastern Railway of Portugal; they (the officers of the Government) have taken possession, recently, of the Company's property without troubling themselves with any of the usual courtesies; of course the shareholders are indignant and will make a noise about it. The steamers Russia of the Cunard line and City of Paris of the Iuman line, had a race across the Atlantic; the result was a dead heat, the steamers arriving within fifteen minutes of each other. Pretty close that, for ocean steaming. Belgium will have to 'cave;' Napoleon wills it; she is like a landed proprietor when a railway com-

Still others claim Olympia as the re great metropolis of the North. A I but sanguine party have pitched upon qualley and intend to stake it out on ground "if it takes all summer." Fr but equally sanguine crowd declare Port Townsend is the favored spot, and or three Victorians, who own lots at ahmoo, regard it as a personal affront told that the railroad is not to terate somewhere on that harbor. Specurs are at fault in this terminus business; iaps the best thing they can do under the imstances is to buy up all the townand await developments.

JURNS AGAIN .- A sloop from San Juan erday reports that the Colonial Hotel per loafed about the American Camp il Tuesday morning, when he procured services of two Indians and 2 cance to vey him to the American side. MAY DAY .- The disposition appears general to observe the 1st of May as a holiday The Mechanics' Literary Institute Committee -generally foremost in recreative movements -bave arranged a pic-nic and excursion to Pedder Bay-one of the many charming spots with which our island abounds-and business men and the bankers have decided to close their doors and give the clerks a holiday. We don't know whether the Queen of May will be crowned or not; but we do hope the pleasant old custom will be revived on Saturday.

THE EXPEDITION TO THE WEST COAST Hon. Dr. Davie, we are glad to know, has succeeded in enlisting the sympathies of the Executive in the case of the officers and crew of the shipwrecked schooner Alpha. The Master of that illfated schooner says he can identify the thieves and the property stolen from him. If this be so, he ought to be taken up with the Sparrowhawk and employed to peint out the wretches, who might do the 'State some service" on the public roads with considerable advantage to themselves

Assault on a Farmer.—Yesterday Wm. Baker appeared before Mr. Pemberton to answer a charge of having violently assaulted George Deans, the well known farmer of Victoria di trict. The assault arose about a disputed boundary line between the farm of Deans and the accused's father. Mr. Courtney appeared to prosecute, and Mr. Bishop detend. The defendant was put under bonds to keep the peace for six months.

/BEER-OH !- Some Indian women, dressed in silks and satins and garnished with various colored ribb ors and cheap jewelry, appeared before the Police Magistrate yesterday to prosecute one Peter McCormick, who was charged with supplying them with beer. The women made out a strong cast against Peter, who, like a wise man, pleaded a pressing engagement at the "railroad terminus" and sailed away in a sloop before the Court

The Velocipede Mania.

EDITOR BRITISH CCLONIST :- The velocipede mains is very well in its way; but their use on our public pathways is too much of a good thing to pass by without a protest to those who use them and the authorities for permitting it. Why, one might as well drive a horse and buggy on the sidewalks as one of those man toys. The danger of a collision with pelectrians would be less collision with poletrians would be less likely to occur with a skilful driver than a novice on a highway two-wheeler. The fire still burns at Gold Hill and to day the steaming process has been resumed through the Crown Point shaft, from which a reduced amount of smoke and gas escapes. The Kentuck staft is free from smoke, the draft being downward. A thick smoke strongly impregnated with gas continues to ascend from the Yellow Jacket. No predicting when the fire will be put out. The fire throws out of employment about 500 men, and has a very depressing effect upon all branches of trade in the immediate vicinity of the mines.

European Mail Summary.

[DATES TO MARCH 21.]

Several election inquiries have been ter-minated since the last mail. Mr. W. II. Smithhus been confirmed in his seat for Westminster, but the Judge intimated his in-tention not to require payment of full costs by the peritiones At Coventry, Mr W H Eaton and Mr Stavely Hill, the Conservative members, retained their seats, no order being made for costs. At Cashel, Mr O'Beirne was unseated for bribery personally and by his agents, and the petitioner, the unsuccessful candidate, Mr Munster, was also adjudged to have been guilty of bribery by his agents. The cases of Bridgewater, Youghal and Sligo are now undergoing inquiry.

Several new elections have been held Mr. T. Whitworth, son of the unseated member, has been returned for Drogheda Sir J. Johnstone, son of the late member, has been elected for Scarborough; and Mr. Miall has been returned by a large majority for Bradford, in place of the un-seated member, Mr. Ripley. At Hereford the Liberal members, Messrs. Clive and Wyllie, have been unseated on account of the corrupt acts of an agent. Sir S. Waterlow's election for Dumfriesshire has been declared void, he being a Government contractor.

Sir John Lawrence, late Governor General of India, arrived in London yester.

At Falmouth, the two Conservative members have been confirmed in their seats; and Bridgewater, where the two Liberal members withdrew from the defence of their return, but declared that they had no previous cognizance of the corruption which wes proved to have prevailed at the last election. The disfranchisement of the brough, a previous offender, is regarded as probable. The inquiries at Youghal, Galway, Salford and Taurton are proceeding. The petiand Taurton are proceeding. The petitions against the Liberal members for Wick and Cambridge have been abandoned.

The Cape Mail of February 4th has arrived. Dr. Macrorie was consecrated a Bishop of the Province of Capetown on Protests against the consecration have been made by portions of the Church community in Natal. Dr. Macrorie left the Cape for Natal on Feb.

Nothing is said as to gold, but the discoveries of diamonds in the Vaul district are reported to be extensive.

The Queen has sent a donation of 150l owards the funds of the Emigration Fund now raising to assist unemployed workmen to remove to less crowded labor

The proceedings in Parliament since Mouday have not been important, and the sittings have not been protracted. A supplementary credit for £3,600,000 on account of expenses of the Abyssinian war, provoked some discussion, but the amount was voted. Mr. Disraeli has given notice to move a negative amendnent to the motion for the second reading of the Irish Church Bill. The Home Secretary has announced his conversion to the ballot, and a Select Committee has been appointed to consider, among other things, the future mode of voting at elec-

The dispute between France and Belgium respecting the Luxembourg Railway still causes auxiety, although more moderate language is used by the Paris press and it is stated that the French Government has informed foreign Courts that there is no cause for alarm. An additional element of difference, however, has been introduced by the refusal of the Dutch Government to sanction a transfer of the railway leading to Amsterdam to the Eastern Railway Company of France. The latest accounts represent the question as in course of arrangement.

The Lord Chancellor has dismissed Mr. Edward Watkins Edwards, the official assignce, for breach of duty in accepting $\pounds5000$ a year from Messrs. Overend, Gurney & Co. Lord Hatherly, of course, passes no opinion on the transactions involved, confining himself to the clear fact that Mr. Edwards had no business to undertake such work and did undertake it.

Mr. Lockyer, a candidate for the repre-Sentation of Wick at the recent General Election, has been sentenced to twelve months' imprisonment for opening letters addressed to a lady, which he obtained from the letter carrier, who was also tried and convicted.

Sir Joseph Oliffe, physician to the British Embassy in Paris, is dead. Sir William Clay, formerly M. P. for the Tower Hamlets, is also dead.

The Reform League, regarding its objects as virtually achieved, has formally dissolved, but has appointed a Vigilance Committee to watch over the rights of the people.

Another member of Parliament is dead Sir J. V. B. Johnstone, M. P. for Scarborough. His death was the result of an accident while hunting.

Information from several quarters

reaches us to the effect that some extra-ordinary revelations are likely to result from the Admiralty prosecution instituted last week. Written and verbal state-ments are pouring in upon the authorities, showing the various ramifications of a system of fraud carried on to an extent of which the public generally have had little idea.

London has a sensation preacher in the person of Ned Wright, a converted burglar. His language is so striking and so effective that Mr. Spurgeon stands no chance against him with the female portion of the audience. He has lately been preaching at the Midnight Mission houses in London, and with such force that many women fell insensible and had to be removed on stretchers.

A suspension of the manufacture of the Palliser chilled shot has been ordered, in consequence of a report made from Shor-

buryness of the breaking of several of them in the bore of the gun when fired. It appears that the stud or bouche at the at the sides near the bottom of the shot are forced in by the explosive power of the powder, which breaks and destroys the missile, and until this defect can be remedical no more will be made.

The !Times says that, besides the sup plementury demand by Mr. Lowe 1 st week on account of the Abyssinian expedition, it is reported that another \$1,-000,000 or £1,400,000, bringing up the total cost of the Abyssinien expedition to a round sum of £10,000,000, may not improbably be required.

FENILIN BANQUET IN NEW YORK.

NEW Y ORK, March 18,-While the Knights of St Patrick were letening to orations or he wrongs of Ireland, last night, at the Astor Hons e, the wealthy gentlemen known as the Frieridly Sons of the canonized Patron of the Green Isle sat down to a banquet at the St James Hotel, and heard addresses which embodied the startling fact that everything was love ly in the Green lele to, and in product of the lact and of their friendliness, they in-vited E. M. Archiball, Esq., the British Consul at this port, to be present. Aware of the friendly character of the audience who would attend, he same, and was greeted warmly. The presence of Mr Archibald at the banquet was somewhat remarkable; for it was the first time he had attended an ostensible Irish dinner since the Fenian Government was organized. His absence from all such Celtic on art imments was attributed to the fact that he employed Bris tish detectives in this city to watch the movements of Irish nationalists here with a view to having them convicted in Ireland, Mr. Pim, a member of Parliament from

Mr. Pim, a member of Parliament from Dutlin, and a well-known Quaker, was also present, and spoke of the 'prosperity of Ireland,' as evidence in what he called the increase of her manufactures. The British create of her manufactures. The British journals, when they read the reports of the proceedings of the banquets of the Knights and the Friendly Sors of St. Patrick, with the Fenian element indorsed by Mayor Hal in one organization, and the British-Irish element in the other, as indorsed by the English Consul, will doubtless be in a quandary to know what are the real views of Celts in the Ilnited States. United States.

HORRIBLE DOMESTIC TRAGEDY IN HIGH Live.—The French papers of February 24th mention a frightful occurrence which trans pired on the 20th of February, and has spread consternation and dismay throughspread octaternation and dismay throughtout the quiet old city of Grenoble:—Baron Brayer occupies an apartment in the Rue Lalayette, part of which he ceded to his trother, with his wife and child. On returning from a walk on Saturday toe Baron was astonished to find all the doors carefully astonished to find all the doors carefully fastened, and fearing some crime, he had the main entrance forced open. The sight that met his gaze was shocking. At a desk in the dining room sat his brother, ki led by a shot from a revolver fixed from the back. The child, 12 years (11, was lying dead in the kitchen, killed by two bullets, and had evidently at uggled hard. The body of his sister-in-law was lying close by, with a bullet through the heart. From notes written in the wife's handwriting it is evident that she committed the murders and her suicide under the excitement of a real or imaginary
